

redi for Intelligent IT

Transforming the User Experience with Tech-enabled Managed Services

The Shifting Landscape

Today's fast-paced digital climate requires you to reevaluate how you conduct your business interactions. Technology executives need to answer the demands of planning and managing an IT environment, while coming to the table with strategic initiatives to increase revenues and adoption of transformational services. With business processes, technologies and systems continuously evolving, you require a partner who is staying on top of the latest trends and can rapidly respond to the demands of the market. ATSG understands the shifting landscape and has a complete portfolio of Technology Solutions as a Service that provide you with the solutions and services you require for an intelligent, automated and secure choice.

Who is ATSG?

ATSG is a tech-enabled managed services and solutions company focused on innovative solutions to enhance the end-user experience. ATSG provides technology solutions as a service to a variety of customers; leveraging our portfolio of rediTech, rediCloud, and rediManage, which includes deep expertise in technology consulting, wireless and network, unified communications, collaboration, multicloud solutions, data center, mobility and productivity solutions. With next generation architectures and 24x7xAlways on-shore managed support services, ATSG collaborates with our clients to transform their operations through our product and managed services portfolio. Whether you would like to engage in an ongoing services relationship, project-based engagement or a quick assessment, ATSG develops the right-fit for your environment.

Vertical Industry Expertise

Healthcare
