

rediTech

Professional Services and Solutions to help you achieve your IT objectives

redi for the subject matter experts?

Today's IT landscape is changing faster than ever. IT executives are being asked to do more with less. Can you even keep up?

rediTech is ATSG's answer to the rapid digitization and evolving technologies that are changing the business landscape. Staying ahead in this demanding environment requires a thoughtful IT architecture that can scale to meet tomorrow's challenges. ATSG's project based Consulting, including End User Productivity, Cyber Security, Application Services, Hybrid Infrastructure Design, Advanced Networking, Engineering and Implementation services optimize the planning and execution of transformational projects. Our highly experienced Consulting and Technology teams collaboratively engage through pragmatic agile methods that are fast efficient, effective and focused. We deliver an end user experience that is more reliable, intuitive and better performing to accelerate outcomes and results. At ATSG, we improve the performance of important business applications and optimize their use, so you receive full value. Through the enhanced performance of unified communications, collaboration, hybrid environments, 'as a Service' choices, cloud based & mobile applications, intelligent wireline, and wireless networking; ATSG's primary goal is to improve the overall operational efficiency and tangible benefits of your IT environment.

Technology Solutions as a Service

ATSG's Technology Solutions as a Service offerings are fully designed, implemented, integrated and managed by our team of professionals and are powered by best of breed technology; 24x7xAlways. The rediTech suite of services provides you with the leading-edge applications, tools, infrastructure and resources required to ensure you are operating and optimized for success. Whether you require our collaboration and unified communications suite of services, our deep Cisco or Microsoft expertise, or our cloud migration, enterprise network and managed security solutions, ATSG has dedicated technical experts ready to assist you with the right solution for your enterprise. Our team will drive the planning and completion of critical projects and develop an ongoing managed services relationship to ensure you always have the competitive edge. We can apply our 'as a service' approach to the entire portfolio, in fact we even offer rediTech Projects as a Service. Let ATSG help take care of your IT requirements, leaving you to focus on your core business.
